WORLD'S NEWS CONDENSED

Rev. George L. Wright, Prohibition candidate of Nebraska for governor, spent but 10 cents in his campaign. He expended the dime for car fare from the depot in Lincoln to the state capitol and back.

R. D. Metcalfe, associate editor of W. J. Bryan's paper, "The Commoner," has declined to support Mayor Dahlman, the "wet" candidate for governor. He says he will support C. H. Aldrich, the county option Republican candidate.

Plans are being made for a campaign for Senator LaFollette for the Republican nomination for the Presidency in 1912 and the movement will start soon after LaFollette is safely returned to the United States Senate. An appeal will be made to the people to overthrow the party bosses.

Reports that the Holy See has dispatched official protests to foreign governments against the anti-clerical speech made by Ernesto Nathan, mayor of Rome, at the recent celebration of the fortieth anniversary of the fall of the temporal power of the church, is denied in Vatican circles. It is understood, however, that foreign prelates and bishops are instructed to encourage a worldwide protest against the mayor's address, which created a sensation throughout Europe and especially in Catholic countries.

The United States Department of Agriculture will distribute in the spring of 1911 about 10 tons of spineless prickly pear cuttings. The stock is grown mainly at Chico, California, and at Brownsville, Texas. Out of 80 varieties which the Department has grown in the past, only six are now being recognized for distribution to those who may wish to test them as an economic crop. These plants will not succeed in the coastal California, the coastal areas of Florida, Texas south of the Rio Grande, New Mexico, and southern Arizona. There will be success where temperatures remain below 20 degrees for any length of time. All orders should be made to the Office of Farm Management, U. S. Department of Agriculture, Washington, D. C., before the first of January, 1911.

The Democratic state convention of New York nominated Henry L. Stimson, New York, as its candidate for governor. The nomination of Mr. Stimson was a clear victory for Col. Roosevelt, who personally led the fight for the nomination of his candidate, comending the brilliant series of triumphs from the moment the convention was called to adjourn until its final adjournment. The remainder of the ticket follows: Lieutenant governor, Edward Schenck; Ex-secretary of state, Samuel S. Konow (renominate); Ex-state comptroller, James Thompson; Ex-state treasurer, Thomas F. Fenner; Ex-state engineer, Frank N. Williams (renominate); Ex-attorney general, Edward R. O'Malley (renominate); Ex-associate judge of the court of appeals, Irving G. Vann (renominate). The vote for governor stood as follows: Henry L. Stimson, 68; William S. Bennett of New York, 242; Thomas S. Dunn of Rochester, 38; James B. McLean of Albany, 28; scattering, 28. The slate as made up by Col. Roosevelt, Senator Root and their advisers went through without a hitch.

Hubert Latham made a trial flight with a hundred horse-power monoplane. The machine developed a speed of from sixty to seventy miles an hour without the full power of the motor being used.

A big section of the Panama canal prism was filled up by a great landslide on September 16. Earth and rock filled the ditch and covered the railroad tracks. The landslide will cause inconvenience for a month. The slide occurred in Culebra cut at Cucuracha.

As a result of Theodore Roosevelt's imbroglio with the Vatican last spring three Catholic prelates—an archbishop and two bishops—have refused to sit at the table with the former President, when he is to be the guest of honor of the Knights of Columbus in Perio on October 12th. More than two hundred priests also refused to be present.

A million and a half fat-back fish were caught off Beaufort, N. C., on September 28th, and fishermen who came ashore reported that as far as the eye could reach the ocean was red with the fish. Nearly two hundred men employed in catching them. The fat-backs, properly called Menhadens, are unfit for food but are dried and manufactured into oils and guano.

Only a foolish prejudice keeps us from having fried shark served on our tables, according to the American Fisheries Society in session in New York. Merely because this deep sea monster has a habit of making human flesh an article of diet whenever opportunity offers, is declared to be no reason why it shouldn't be classed as a delicacy. One scientist says he prefers shark to lobster. Several delegates expressed the belief that cultivation of the shark as a food fish would do much to solve the high cost of living.

There can now be no question about the fall of the Portuguese monarchy. Lisbon, the national capital, passed into the hands of a revolutionary mob Wednesday afternoon. King Manuel took refuge in the palace when the trouble began but later, when the palace was surrounded by the raging mob and shells from rebel warships began raining upon it, he was forced to flee and take refuge aboard the Brazilian warship *Sao Paulo*. Revolution is sweeping over Portugal like wild fire and it threatens at any minute to cross over the border and engulf the kingdom of Spain.

The Democratic state convention of New York nominated John A. Dix, Washington county; Lieutenant governor, Thomas F. Conway, Clinton county; Secretary of state, Edward Lazansky, Kings county; Comptroller, William Schmer, New York; State Treasurer, John J. Kennedy, Erie county; Attorney general, Thomas J. Connelly, Yates county; State engineer and surveyor, John A. Bensel, New York; Associate judge of the court of appeals, Frederick K. Collins, Chemung county. This list of candidates, prepared after a day of almost continuous conferences, went through shortly after midnight with only two hitches in its quick progress. This was the presentation of the name of Congressman William Sulzer as the only rival candidate for governor. Mr. Sulzer received 16 of the 450 votes of the convention and Mr. Dix got the rest.
